

PT V2 Power Rack

SKU: F-PTPR-V2

Product Images

Short Description

Designed with PTs and garage gym owners in mind and constructed using durable powder-coated steel, this **Force USA® PT Power Rack** is built to withstand a massive **325 kg** while providing years of hard-wearing use.

Description

Why should you buy the PT V2 Power Rack from Force USA®?

MULTI-GRIP PULL-UP BAR

Perfect for traditional, neutral, close or wide-grip pull-ups weight rated at **200kg!** The chin-up can also be inverted to fit into lower ceiling heights.

3CM HOLE SPACING

The **PT Power Rack** comes with 28 adjustment points on the front and back uprights so you can make faster and more accurate adjustments for your J-Hooks and Box Safeties.

NYLON COATED J-HOOKS

The nylon coating provides superior abrasion, and wear/impact resistance compared to typical polyester powder coating. Designed to protect your barbell, minimise the risk of rusting, while also reducing noise when dropping the bar - making it perfect for training in your garage gym or PT facility.

WEIGHT PLATE STORAGE

Suspend your weight plates safely off the floor for easy access with the 2x weight plate storage holders located at the rear of the **PT power rack**.

BOX SAFETIES

Push yourself to the limits safely, all without the need for a spotter! Easily install and adjust the box safeties to any height without dealing with fiddly nuts and bolts. Designed to catch the weight, so you don't have to, these safeties come lined with nylon to ensure your barbells are protected.

STABLE AND COMPACT DESIGN

The **Force USA® PT Power Rack** offers superior durability and versatility in a compact frame with a **213cm (H) x 121 (W) x 121cm (D) footprint**. Constructed using strong powder-coated steel, this Power Rack is built to withstand a massive **325KG** while providing years of hard-wearing use.

OPTIONAL LAT PULLDOWN / LOW ROW ATTACHMENT

Available as an optional extra the **Force USA® PT Power Rack Lat Pull-Down / Low Row Attachment** allows you to easily add lat pull downs, tricep pushdowns, low rows and many more movements to your training routine. Simply connect to the back of your **Force USA® PT Power Rack** and add plates to the loadable sleeves for resistance.

***Not suitable with MyRack Attachments**
