

Dip Handles

SKU: F-DIP-HANDLES

Product Images

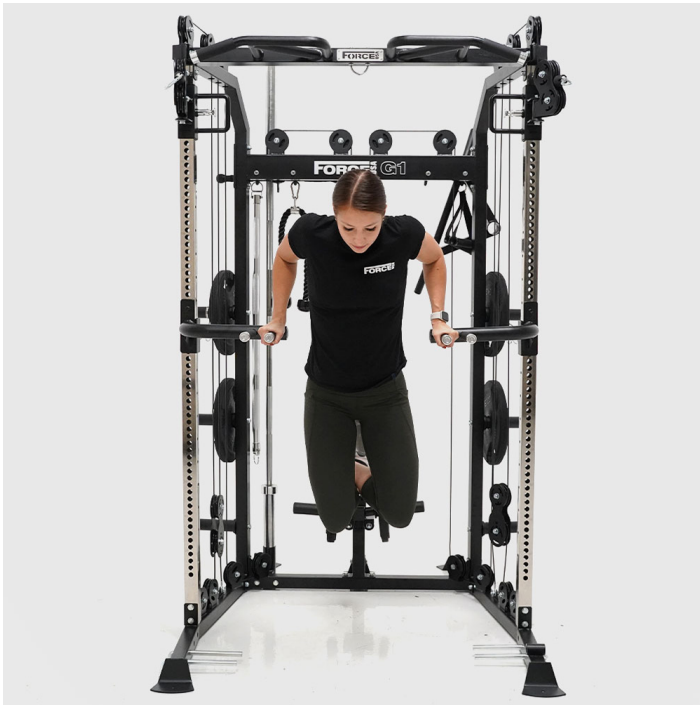

Short Description

Transform your home gym setup with the **Force USA® Dip Handles (Pair)**, designed to effortlessly add a versatile new station to your **All-In-One Trainer**. These handles attach in seconds and provide two grip positions, allowing you to choose the ideal width for your dips. Whether you're pushing for strength gains or toning up, these dip handles will become a staple in your workout routine. Built to fit most **Force USA** trainers, they're an easy way to level up your functional training and make the most out of your gym space.

Description

Why should you buy the Dip Handles from Force USA®?

EASY ATTACHMENT AND VERSATILITY

The **Force USA® Dip Handles** are designed to be quickly and securely attached to your **All-In-One Trainer**, using a simple mechanism similar to J-Hooks. Just place the pin in the desired hole and rotate the handle by 90 degrees to lock it in place, allowing you to set up or remove the dip handles in seconds. Featuring two different handle positions, these dip handles give you the freedom to choose the perfect grip width for your dips, tailoring each session to your specific training needs. Whether you're targeting your chest, triceps, or shoulders, this versatility lets you maximize each workout. Designed to fit 5cm x 5cm uprights and accommodate both 16mm and 26mm pin systems, these handles are compatible with popular **Force USA** models like the G1-V2, G6, G12, G15, and more.
