Product Images

Short Description

The new **Evolution** line from **Titanium Strength** is **designed to meet the demand of the most serious users**.

The high quality 2mm steel tubes, durable construction and the variety of options offer optimal training comfort, safety and quality. It provides sufficient capacity for most heavy users making these strength machines **perfect for any serious Home gym or Semi-Commercial Environment**.

The two-tone matte black and red painting provides a unique and stylish look which makes the H line **the perfect way to experience all benefits of strength training and Body Building**.

Description

Why should you buy the Titanium Strength Evolution Deluxe Smith Machine and Rack?

The Titanium Strength Deluxe Smith Machine is the **perfect combination** between a **Smith Machine** and **Squat Rack** to be able to train with **free weights** as well as **fixed** in the **Smith Machine**. The heavy steel construction and smooth guides guarantee the best training and safety.

The **Smith Machine** function includes **two safety stoppers** that can be fixed on the chromed hooks so it can catch the bar in case of emergency and thereby allow you to train in safety and to extend your limits.

The handy hook system of the **Smith Machine** allows you to hang the rod at 15 different heights and so the Smith Machine offers a **wide range of exercises**.

The combination of Deluxe **Smith machine** and the **Half Rack** is ideal for any gym. With the half-rack function you can train with free weights such as a **barbell**. The red colored **J-hooks** and **spotters** offer training ease, safety and can be set at 15 different heights.

If you are going to work with **strength training**, you obviously want it to be done in a safe way. A solid quality and stability are very desirable, the **Titanium Strength** meets all requirements.

The extremely stable and strong heavy duty steel frame ensures that the Smith Machine can withstand a maximum load of up to **280 kg** and does not succumb even under the heaviest load.

Key features:

- **Professional Solid** guide rod plus high quality
- **Linear bearings** provide smooth Smith moving
- **Solid lifting bar** with rotating sleeves
- **Dual connection** of uprights for extra stability
- **Plates and bar storage** included
- **Heavy duty construction**, compact and versatile

* This **Multipower** is recommended by **industry experts**. If you want to know more, go to the following link:
