

Aluminium Olympic Lock Collars - Pair

SKU: F-ALUOLYLOCK

Product Images

Short Description

With precise engineering, a quick release lever and sleek modern look, these **Force USA® Aluminium Olympic Lock Collars** are the perfect way to quickly load and lock your weights.

Designed for Olympic sized bars with a 50mm diameter, these lock collars provide a fast transition between weights and safely secure your plates no matter how heavy you lift. **The aluminium collar** is lightweight (380g) and durable, with soft inner elastomer pads to reduce weight damage and an easy-to-use clip handle.

Description
