

Wall Ball 4 KG

SKU: TWB4

Product Images

Short Description

The **Titanium Strength Wall Balls** are the essential tool for high-intensity workouts. With reinforced stitching of nylon thread and a wear- and moisture-resistant PVC coating, these medicine balls are perfect for throwing exercises, whether in the box, gym, or personal training center. Their PVC cover not only provides strength and durability but also a non-slip texture for secure grip during use. **Robust, long-lasting, and designed to perform in any training environment!**

Description

Why should you buy the Wall Ball 4 kg from Titanium Strength?

FIT FOR MULTIPLE EXERCISES

The **Titanium Strength Wall Balls** are designed to be a key component in any functional training regimen. While their name suggests their primary use in Wall Ball Shots, this versatile accessory is equally effective for a wide range of functional exercises that enhance strength, endurance, and coordination:

- Front Squats
- Russian Twists
- Weighted Sit-Ups
- Lunges
- Single Leg RDL
- Shoulder press
- Weighted Wall Sit
- Cleans
- Thrusters
