

# Commercial Recumbent Exercise Bike RB1100 By Shua

SKU: RB1100

**Product Images**

## Short Description

---

The **Titanium Strength RB1100 Recumbent Bike** offers a perfect balance of comfort, performance, and functionality. Its recumbent backrest allows for infinite adjustment to accommodate different body types, while its **40 levels of resistance** and **15.6" LED screen** make it the perfect choice for commercial gyms. Designed to reduce back stress and distribute weight comfortably, it provides optimal support during exercise. Additionally, its small footprint maximizes space in your facility without compromising quality or functionality.

## Description

---

### Why should you buy the Commercial Recumbent Exercise Bike RB1100 from Titanium Strength?

#### 15.6" LED SCREEN

The **RB1100's 15.6-inch LED screen** is simple and functional, displaying essential workout information such as time, distance, speed, calories, watts, RPM, resistance, and pulse. The intuitive interface allows users to easily monitor their progress and adjust their workouts according to their needs.

#### SELF-GENERATION SYSTEM

The **RB1100's** self-generation system eliminates the need for an external power source, reducing costs and allowing the bike to be placed anywhere in the gym. This makes it ideal for facilities with a high volume of users.

#### ADJUSTABLE MAGNETIC RESISTANCE

The **bike** offers **40 levels of magnetic resistance**, generated by a **14 kg flywheel**. Users can quickly select between levels **10, 20, 30, and 40** from the screen buttons, adapting the intensity of their workout quickly and accurately.

## ERGONOMIC DESIGN AND COMFORT

The **RB1100's reclined design** is intended to reduce back stress and distribute weight comfortably, providing optimal support during exercise. The pedals and seat are ergonomically designed to offer maximum comfort, and the seat is easily adjustable to accommodate users of different sizes.

## COMPACT FOOTPRINT

The **compact design** of the **RB1100** optimizes space in your gym without sacrificing the quality or performance of a commercial-grade machine. Additionally, its smooth, quiet, and durable operation provides an exceptional experience for your users.
